

Semi Auto Foil Rewinder

Semi auto single shaft aluminium foil rewinder is new model for 2019, it is high speed production with very simple operation.

Machine designed with non-clamp request for clamp the paper core. the paper core only needs to be put between two rollers to be passive rolling rewinding. this machine does not require glue to spray before start rewinding. it can start rewinding directly without a glue or sticky tape request. It is one of the advantages of this machine.

The non-skilled operator can operate the machine without any machine knowledge. when finished the one roll rewinding, the next paper core is put on the rewinding station to wait for next. There is a cutting blade designed on the machine with the best solution of cutting with rapid pace.

This machine is ideal for small length consumer rolls, 3, 5, 7, 8, 10, 20, 30m etc.

Machine adopts PLC HMI unit with LCD touch screen for smart control of operation.

Main specifications:

Machine name: Semi auto aluminium foil rewinder machine

Model Number: PPD-AF20191

Material: aluminium foil

JIAXING PPD PACKAGING MACHINERY CO LTD

Master roll width: 200/300/450mm

Master roll inner core diameter: 3 or 6 inch

Master roll out diameter: Max 500mm

Rewind roll width: max 450mm

Rewind roll inner core diameter: 32/35/38/40mm

Rewind roll length setting: 2/3/7/8/30m etc

Speed: 300rpm/minute

Power: 2kw

Voltage: 220/380/400/415/450v

Delivery: 4 week

Color: blue/red/yellow
