

## Stretch Wrap Rewinding Slitting Machine

Stretch wrap rewinding slitting machine is designed to cater the Europe safety standard for a stretch wrap slitter rewinder.

The jumbo roll is protected by the protection cover to ensure the safety of the operator will not hurt by the jumbo roll if fall down.

This is the Europe Union safety standard requirement for CE certified, as ECO friendly, this model is also with ROHS certificate.

Patsons company follows the Europe standard to make our machines to enter the market.

Our machines are warmly welcome in Europe market.

This model is ideal for converting the jumbo roll of stretch film into small bundle stretch wrap roll, banding stretch film roll, PVC electric wire protection film etc.

As value added model, this model can work as a standard high speed stretch wrap rewinding machine to convert the jumbo roll into small roll for hand roll (2kg, 3kg etc) and machine roll (up to 18kg).

Machine design speed at 650m/minute for high protection ratio, it is ideal for heavy duty daily production model with low investment and high return.

Machine is simple in digital display, very user friendly.

We have developed different model for the width demand, from 500mm, 600mm, 770mm, 800mm, 900mm, 1000mm, 1200mm, 1500mm etc for different option.

The air shaft is optional for buyer demand.

The model pass CE certificate. Our company pass SGS audited supplier, and BV audited supplier. Our logo brand PPD 盛百福 is rewarded as China Famous Brand.

### Machine parameters:

Machine name: Europe standard stretch wrap rewinding slitting machine

Machine Model: PPD-ESFSR500

Master reel width: 500mm or option

Master reel inner diameter: 3inch or option

Master reel outer diameter: max 500mm or option

Baby roll width: 50mm to max width

Baby roll inner diameter: 1/1.5/2/3inch option

Baby roll outer diameter: max 280mm rewinding/220mm slitting

Machine Speed: 650meters/minute

Power: 2.2kw

Voltage: 220/380/415/450v

Weight: 700kg
